OBJECTIVE

Enthusiastic and detail-oriented Electrical and Electronics Engineering student with a strong foundation in electronic circuits, hardware testing, quality control, and embedded systems. Hands-on experience through internships in coil manufacturing, solar power systems, and mobile phone hardware servicing. Skilled in circuit troubleshooting, testing, and problem-solving with a passion for delivering high-quality engineering solutions. Eager to begin a career as a Hardware, Quality, or IQC Engineer and contribute to organizational growth while continuously learning new technologies.

TECHNICAL SKILLS

- Electronic Circuits & Components
- PCB Design Fundamentals (Basics of KiCad & Proteus)
- Embedded Systems (Basics)
- Circuit Testing & Troubleshooting
- Electrical Measurements & Testing
- Soldering & Component-Level Repair
- Hardware Debuggings

TOOLS

- Basics of KiCad & Proteus
- Arduino IDE
- Multimeter
- MS Office

EDUCATION

S. No.	Qualification	University / Board	Year of passing	Score (%)
1	BE- ELECTRICAL AND ELECTRONICS ENGINEERING	ANNA UNIVERSITY	2023-2027	8.17 CGPA (up to 5 th semester)
2	HSC	STATE BOARD	2023	53.7%

PROJECT EXPERIENCE

- Wireless Charging System for Electric Vehicles (2WD & 4WD): Designed and developed a wireless charging system for 2WD and 4WD electric vehicles using inductive power transfer technology.
- Intelligent Battery Management System for Electric Vehicles: Developed a battery management system to monitor voltage, temperature, and battery health for enhanced safety and performance.
- Smart Trolley Automation System: Designed and implemented a smart trolley system using embedded technology to automate product identification and billing.

INTERNSHIP EXPERIENCE

- Undergone internship on Core Java at ETS Academy, Erode.
- Undergone internship on Coil Manufacturing at Coral Engineering Works, Perundurai.
- Undergone internship on Solar power plant at Kangayam.

ACHIVEMENTS

- 3rd prize on Paper Presentation Electric Vehicle Intelligent Battery Management system at M.P.Nachimuthu M.Jaganathan Engineering College, Erode.
- 2nd prize on Hackathon, "Wireless Charging in E-Vehicle", Jai Sriram Engineering College, Tiruppur.
- 2nd place on Technical quiz at M.P.Nachimuthu M.Jaganathan Engineering College, Erode.
- 3rd prize on Hackathon, "Smart trolley", Jai Sriram Engineering College, Tiruppur.
- 4th prize on Robo league, Erode Sengunthar Engineering College, Perundurai.

CERTIFICATIONS

- Robotics & Automation Bootcamp
- Mobile Phone Servicing – Skill Development Program
- Coil Manufacturing Internship – Coral Engineering Works
- Solar Power Plant Training
